## Education

2014-2019  
**Mining Surveying**  
**Silesian University of Technology**  
Master's Degree

# Tomasz Żuber

## Junior Frontend Developer

Frontend Developer with nearly 3 years of non-commercial experience, skilled in React and Next.js. I'm passionate about crafting clean, responsive web apps and bring growing expertise in full-stack development with Node.js, Express, and databases like MongoDB and SQL. My focus is on delivering high-quality, user-friendly and optimized solutions.

## Projects

### E-commerce Platform (NeXtPC)

09.2024 - 01.2025

Live: <https://nextpc.vercel.app>

- Fully functional e-commerce site** – online store featuring user authentication, shopping cart, order management, and the ability to save favorite products
- Custom backend & REST API** – developed a custom backend with full CRUD operations for managing products, orders, and reviews
- Security & authentication** – implemented user login and registration with JWT-based authentication, secure session handling, and data validation
- Advanced shopping system** – integrated a shopping cart with features like order editing, payment method selection, and real-time order tracking
- Responsive & optimized** – fully responsive design, optimized for both mobile and desktop devices, following UX/UI best practices and SEO-friendly structure

React • Next.js • Typescript • Javascript • Node.js • Express.js • Mongoose

### Business Landing Pages (Geodesy and Law Company)

11.2024 - 12.2024

Live: <https://asgeodezja.vercel.app>

Live: <https://pzblawcompany.vercel.app>

- Professional business websites** – fully responsive landing pages for a geodesy company (Polish) and a law firm (English)
- Clean & modern design** – intuitive, user-friendly pages with a professional layout, ensuring adherence to core UI/UX principles
- SEO & accessibility optimized** – SEO-friendly structure for improved search engine visibility and designed with accessibility in mind
- Multi-page structure** – comprehensive multi-page site with dedicated sections for services, about us, team, and contact
- Fully responsive** – optimized for mobile, tablet, and desktop devices, ensuring smooth and consistent browsing across all platforms

React • Next.js • Typescript • Javascript • Git • Github • CSS

### Netflix Clone

08.2023 - 03.2024

Live: <https://netflixcloneen.vercel.app>

- Full Netflix-like experience** – replicates core Netflix workflows, including seamless profile selection, search functionality, and content browsing
- Complete registration flow** – mimics Netflix's detailed multi-step signup process, allowing users to choose their device, language, and profiles
- Authentication & user management** – implemented Firebase-powered login/logout, profile editing, and created distinct guest and kids pages
- Responsive & optimized UI** – designed to be fully responsive across mobile, tablet, and desktop, while adhering to SEO and accessibility best practices
- Dynamic & multi-page structure** – designed a feature-rich application with around 30 pages, including static and dynamic content for series and movies

React • Next.js • Typescript • Javascript • Firebase

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
